Proposed for Vancouver by 1976

Millions for Freeways

A 45-mile network of freeways to cost an estimated $465,000,000 and be in use by 1976 was recommended for the Vancouver metropolitan area in a report released yesterday by Highways Minister P. A. Gaglardi.

The report, prepared by his department's technical committee for metropolitan highway planning, predicts population of the metropolitan area will have doubled in 21 years, from 665,000 in 1955 to 1,241,000 in 1976.

The report points up sharply the need for inter-governmental co-operation and shows that some form of metropolitan government is necessary to help finance the facilities.

It also emphasizes that the user, the motorist directly served by the facilities, should bear a direct and substantial part of the cost, through increased gasoline tax or tolls.

"Our engineers can provide a solution with the freeway, as long as we realize from the beginning that it is not really a freeway, but an expensive way," Mr. Gaglardi said.

In downtown sections of metropolitan Vancouver, the report forecast, motor vehicles will increase from 125,200 in 1955 to 865,000 in 1976; motor vehicle trips per average weekday will increase from 651,000 to 1,531,000 in 1976; and transit person trips per average weekday from 210,000 to 287,000 in 1976.

The report estimates that transportation system deficiencies, if not overcome, will cost in congestion resulting from increased vehicle mileage cost an increase of between $1,000,000 and $2,000,000 a year—to about $50,000,000 by 1976.

★ ★ ★

Major transportation deficiencies can only be solved efficiently, the report said, by constructing an entirely separate system of high-speed freeway systems, with no cross traffic.

Connections to major and other highways would be made at specially designed interchanges.

But the report points out that in all transport were by automobile, more freeways would be required so, along with the freeway development, rapid-transport service of the freeway-express-bus type should be started in the metropolitan area.

The sun is so huge that although only 1/100 of 1 per cent of its mass will be used up in the next 1,500,000,000 years, it could still take 57,000 freight cars to haul away the mass that the sun consumes in one second.

Hoffa Aides Out to Quell Rebel Group

TORONTO (UPI) — Two trusted aides of teamster czar James Hoffa arrived here last night to bring to heel rebellious members of the Toronto local out on a wildcat strike threatening to paralyze transportation in Ontario.

Their arrival followed a plea by Ontario Labor Minister Charles Daley asking Hoffa's intervention.

Announce Way To Help Drain All 8 Sinus Cavities Without Discomfort

New decongestant tablet for sinus congestion sufferers acts both to drain clogged sinus cavities and relieve distressing head pain

Toronto, Ont. (Special) Announcement has been made of a new tablet development which has the remarkable ability to help drain clogged sinus cavities and thus relieve congestion and pressure. The headaches, pressure pains, stuffed-up head, nasal drip, clogged breathing—all the unrelenting symptoms the sinus sufferer knows so well—are attacked directly by improving drainage of the sinus areas.

Most remarkable of all is the fact that this is accomplished quickly and without discomfort of any kind. This new tablet does its work internally, through the blood stream. It deposits into every drop of blood plasma a medication which is carried to the sinus area, where it shrinks the swollen doors to the sinus cavities and helps drain away the pain-causing pressure and congestion.

The shrinking substance in this new tablet has been so successful topically in promoting drainage of the sinus cavities that it is now prescribed more widely by doctors than any material for this purpose. This new medication is now available at drug counters without the need for a prescription under the name, Dristan Tablets. Dristan Tablets cost only $1.25 for a bottle of 24 tablets. Buy and use Dristan Tablets with the absolute guarantee that they will drain away pain-causing pressure and congestion of the sinus cavities, relieve the pain and distress, or purchase price will be refunded.

Does your baby crawl on the floor?

Take no chances! When you mop floors, add 3 tablespoons of "Lysol" to each gallon of suds. "Lysol" kills *every* disease germ it touches. So use it to clean nursery walls, baby's crib, sinks, etc. "Lysol" disinfects without danger to anything except germs!
